ATTENTION : **THE HON. ARTURO BRION**
Secretary

SUBJECT : **URGENT CALL/ REQUEST FOR DOLE ASSISTANCE IN THE
FULL IMPLEMENTATION AND ENFORCEMENT OF R.A. No.
9266 (THE ARCHITECTURE ACT OF 2004)**

REFERENCES : 1) Sec. 44 of **Republic Act (R.A.) No. 9266** (The Architecture Act of 2004) **approved** by Pres. Gloria Macapagal - Arroyo on 17 March 2004 and which took **effect** 10 April 2004 (repealing R.A. Nos. 1581 and 545), its Implementing Rules and Regulations (IRR) effective 01 December 2004 and derivative regulations; and 2) the ongoing and apparently willful/ deliberate violations of provisions of R.A. No. 9266, its IRR and its derivative regulations by agents of the DPWH, agents of the DILG and agents of LGUs nationwide

Dear Sec. Brion,

Warm greetings from the **Professional Regulatory Board of Architecture** (the "PRBoA")!

Thank You for speaking at the **Professional Regulation Commission** (the "PRC") Recognition Night last 22 June 2007. Hearing some of Your words, the architects of this land have become more convinced of the need to continue further with the struggle to finally attain justice for the Filipino architects.

The PRBoA, a body under the **PRC**, is tasked with implementing **R.A. No. 9266** which states that **only registered and licensed Architects** are allowed to sign and seal architectural plans and documents. Yet despite the **full effectivity** of **R.A. No. 9266** since 10 April 2004 (over 3 years ago) and despite the **non-applicability** of the court-issued May 2005 injunction to R.A. No. 9266, its IRR and its derivative regulations, registered and licensed Civil Engineers (the "CEs") continue to practice architecture through their preparation, signing and dry-sealing of architectural documents, plans, designs and specifications.

The PRBoA fully believes that the act of a registered and licensed CE signing and sealing architectural documents is a clear, unequivocal, continuing, orchestrated and willful violation of multiple provisions of **Republic Act (R.A.) No. 9266 (Architecture Act of 2004)**, its **Implementing Rules and Regulations (IRR)** and derivative regulations.

The PRBoA also believes that this issue of signatory to architectural documents is one of **national importance** because for the last several decades, the situation has already resulted in the degenerative quality of our physical environment (both natural and built) e.g. substandard and uncomfortable living spaces, overbuilding even on mandated open spaces, too much use of concrete, glass and metal surfaces that increase near-ground and ambient temperatures, incorrect building orientations, major National Building Code of the Philippines (P.D. No. 1096) violations such as windows and/or mounted billboard structures on firewalls, illegal and informal structures and/or settlements within private and public lands and within the road-right-of-way and rights-of-way/ easements (RROWS and ROWs, which all form part of the public domain), the perennial lack of fire escapes, violations of the law on accessibility for the disabled, etc., to mention only a few.

Add to these improper grading practices coupled with the rampant cutting of trees (resulting in flooding even on higher elevations/ slopes), garish displays such as billboards and incoherent signages all over the urban and rural landscapes, disregard for various forms of pollution control and energy savings, relative absence of tropical design & green architecture/sustainable building technologies, etc.

For the PRBoA, these are issues that relate to **public interest, safety and welfare** and are clearly attributable to a non-architect's apparent lack of training, focus and aptitude in the design and physical planning of buildings, open spaces and their environs (the "built environment").

To enable the 24,000 Filipino architects to truly help the government in building a new Philippines, there is therefore clear need to effect the soonest the full implementation and enforcement of the provisions of **R.A. No. 9266** and its IRR nationwide, particularly the sections that limit the preparation, signing and dry-sealing of all architectural documents only to architects registered and licensed by the state.

Our recent letter to the various LGUs nationwide (reference Annex 1), which is self-explanatory and very clear in its statement/s concerning the matter of the application of the court-issued May 2005 injunction i.e. which does **not** apply to R.A. No. 9266 nor to its IRR and its derivative regulations, have already received varied reactions to date, some positive, some negative. There is therefore need for the DILG and the DPWH to help these LGUs comply fully with the law, possibly through the issuance of a **memorandum, a special order or a department order.**

We hope that through Your active intervention, both the DILG and the DPWH shall take the matter of the January 2004 Department of Justice (DoJ) opinion (covering R.A. 1581 and 545, the predecessor

laws of R.A. No. 9266, reference Attachment 1 of Annex 1) seriously, since both the DPWH and the DILG (and their agents) are the key offices of the executive branch of government currently implementing and enforcing the National Building Code of the Philippines or NBCP, otherwise known as P.D. No. 1096) in relation to R.A. No. 9266. The opinion's signatory is now the incumbent Ombudsman, who shall be furnished a copy of this letter.

Your and the DOLE's understanding and assistance will go a very long way in helping relieve the continuing/ decades-long injustice foisted on Philippine architects, presently exacerbated by the flagrant, orchestrated and willful violations of R.A. No. 9266 for the nearly 3 years that it has been in full effect.

Thank You very much.

Yours sincerely,

ARMANDO N. ALLÍ
