Brief of Professional Experience

About twenty two (22.0) continuous years of progressively responsible and highly diversified professional experience in the practice of various aspects/ classes/ levels of Development Planning, Environmental Planning and Land and Property Development Consulting, i.e., comprehensive land use planning/ urban planning/ transportation planning/ master development planning/ physical planning/ site planning), architectural design, allied design and environmental investigation services for a broad range of projects both in the Philippines and overseas.

More than fifteen (15.0+) years of responsible/ diversified experience in the practice of the Environmental Planning Profession with master development planning (MDP), urban/ transportation/ development/ site planning, comprehensive land use planning (CLUP), land use mapping and analyses, zoning ordinance (ZO) preparation/ revision, formulation of development controls and management guidelines preparation (for buildings and land uses), environmental/ area/ estate/ site planning, field research, pre-feasibility/ feasibility study preparation and project management of contracted consulting services as fields of concentration.

Planning consulting experience is complemented by more than nineteen (19.0+) years of responsible/ diversified experience in the practice of the **Architectural Profession** with project packaging/ project development, space planning, architectural programming, architectural design development, site development planning, detailed engineering design coordination, contract management/ administration, contract/ tender/ construction documentation, tendering assistance, periodic construction supervision, client recruitment/ relations, business development, corporate/ office/ business management, building technologies/ housing systems and low cost construction materials research and development (R&D), pre-feasibility/ feasibility study preparation, architectural instruction and Project Management of contracted consulting services as fields of concentration.

Architectural and planning consulting experience is further complemented by more than fourteen (14.0+) years of responsible/ diversified experience in the practice of **Allied Design Professions** with architectural and engineering (A&E) design coordination, interior design, furniture design supervision, graphic design, site development planning, landscape architecture design supervision, urban design, construction management, performance of various real estate services (including highest and best use studies), pre-feasibility/ feasibility study preparation and Project Management of contracted consulting services as fields of concentration.

Design and planning experience is complemented by the performance of various types/ levels of environment consulting and **Environmental Investigation/ Assessment Services** over the past ten (10) years with focus on initial environmental investigations (IEEs) for office, commercial and residential building projects in urban locations and for housing sites in urban/ rural-urban settings.

Officially-accredited professional in the field of **Alternative Dispute Resolution (ADR)** for the construction industry sector, i.e., construction arbitration, conciliation or mediation, a evidenced by his induction into office by a Justice of the Supreme Court of the Philippines. As an arbitrator, he sits as a judge in the resolution of construction cases brought before him. Archt. Allí is also a firm advocate for the ethical practice of the professions of architecture and planning as evidenced by his involvement in Philippine legislative efforts to amend existing/ antiquated laws concerning the practice of architecture and environmental planning in the Philippines. He is also actively involved in the preparation of zoning ordinances and related development controls and in the revision of the Philippine National Building Code.
